EJMS is operated under the principle of data minimization where only the minimal amount of personal data, which is required to carry out a task, is obtained. The names and email addresses used during the manuscript submission and publication in this journal through its website will be used exclusively for the stated purposes of this journal and definitely will not be made available for any other purpose or to any other party.

EJMS follows the Creative Commons Privacy Policy for every manuscript published in the journal. This Privacy Policy explains the information collection, use, and sharing practices of Creative Commons Corporation and is incorporated into part of Creative Commons Master Terms of Use. Further details of information about the Creative Commons Master Terms of Use can be found in the web link of the creative commons page following this link: https://creativecommons.org/terms/

In addition, supplemental Privacy Policy terms may apply to a particular service, such as rightsback.org. Creative Commons maintains and publishes policies that apply to the use of the websites content. Further details of the policies of Creative Common can be found in the following web link: https://creativecommons.org/policies/
